Tushies Wipes (USA)

Tushies Wipes Manufacturer Tushies USA, Connecticut Price \$9-\$10, depending on retailer Pack Size Pack of 80, 15 x 20cm Features

* Available in a re-usable plastic tub or refill pack. (The refill pack does not have a re-sealable tab)

* Available scented or unscented

* Natural formula

* Hypo-allergenic and alcohol-free Ingredients

(ingredients listed from highest to lowest concentration)

1. Water

2. Aloe Vera

3. Glycerin (vegetable-derived)

4. Allantoin (botanical extract of the comfrey plant)

5. Panthenol (natural alcohol derivative of Vitamin B5)

6. Vitamin E

7. Tartaric acid (natural buffer)

8. Potassium Sorbate (Natural preservative) Nappy Review says... These wipes are good value as they are a little bit longer than Seventh Generation's but \$1-\$2 cheaper. They are moister too but the moisture tends to congregate at the bottom of the pack, so you have to turn them often. We didn't like the fact that you have to buy the tub first, before you buy a refill pack as the refill doesn't have a re-sealable tab. This would also be inconvenient if you were travelling and didn't want to carry a bulky plastic tub around. They're also thicker than the Seventh Generation product. We also like the fact that the preservative is last on the list which is not always the case with other brands! Other Mums say... Where to Buy ONLINE at Skin Organics Online, \$9.95 for a refill pack.
